I'm against waste dumping at Yucca Mountain. I feel this is a huge risk to our environment and our health. I'm a Native American college student and resident of Nevada. Why do you have to dump waste on my home and land? What happens if there is an accident w/a truck carrying waste? Please don't let it get that far!

Please note: For your comment(s) to be considered by the Secretary of Energy before a decision is made whether to recommend the site to the President, your comment(s) need to be received by the U.S. Department of Energy by September 20, 2001. To the extent practicable, the Department will consider comments received after September 20, 2001.
